PK Wealth Managed Portfolio Service

The PK Wealth Managed Portfolio Service (MPS) provides a range of five risk-rated investment portfolios with multi-asset exposure to global markets. The Managed Portfolio Service was launched in 2016 in line with PK Wealth's investment process and MPS portfolios can be held within a variety of tax wrappers.

PK Group

PK Group was founded in 2003 and provides accountancy, tax planning, financial planning, employee benefits and investment management services to corporate and individual clients. PK Wealth (a member of PK Group) provides discretionary and model portfolio services to a broad range of investors. The investment team works with private individuals, companies, trusts and charities in conjunction with their professional advisers.

IMPORTANT INFORMATION

Past performance is not a reliable indicator of future returns. The value of investments and the income derived from them can go down as well as up and you may not get back the amount invested. PK Wealth is responsible for managing the model portfolios and the professional adviser is responsible for advising the client on portfolio selection and for assessing the suitability of the selected portfolio for each client on an ongoing basis. Each strategy rebalance will simultaneously impact all clients linked to that risk portfolio.

The information in this document does not constitute advice or a recommendation and is for the information of the recipient only.
